Description

The small island of **Cabilao** is located just in front of Bohol's north coast, about 30 km from Tagbilaran along the coastal road to Calape and Tubigon. Cabilao is linked by boat to Sandingan Island, which in turn is connected to Bohol by a bridge.

Mag-Aso Falls are eight-meter twin waterfalls situated at the bottom of a deep gorge. Turquoise water surrounded by tropical flora and fauna looks like a lost paradise. There are no sounds except the roaring water. A meditative, calm and very natural place. It's located away from most of the attractions of Bohol Island and is not covered by most of the Bohol tour itineraries so it's not usually crowded. There is a good chance you'll be there alone.
