Description

Early morning is the best time to see these beautiful creatures frolicking in the seas around Bohol.

After you have completed your dolphin watching you can visit some of the islands which surround Panglao, for example Balicasag or Virgin Island.

Balicasag Island: Balicasag has some of the best dive spots in the Philippines. You can scuba dive or snorkel there and discover the beautiful underwater world. The reefs are in good condition and turtles are nearly guaranteed. Balicasag is surrounded by a white coral beach.

Virgin Island: Virgin Island is an uninhabited island where you can enjoy a long string of white beach in the middle of the ocean during low tide. Once high tide arrives, the island almost disappears.
